- Added "Bank Transfer" as a payment method when selling.

- When you tap on email address or phone number in a client's record, you are now prompted if you'd like to send an email or phone the client.

## Handy Hints Number 60

### *Open Ended Packages*

Another popular new feature in V5.1 of ClientConnect is the [Open Ended Package](#). This is something that you all have been asking for and we're hoping that you're now enjoying the added flexibility this provides.

The Open Ended Package allows you to set up an ongoing Service/Package that has no expiry date. The service will continue indefinitely and allocate sessions to the client accordingly. The associated invoices are only created when they fall due eg. weekly, fortnightly etc.

For more information, please refer to the Open Ended Packages user guide.

### **Reminders**

As usual, please send **ALL** correspondence to [support@pulsetecsolutions.com](mailto:support@pulsetecsolutions.com) NOT to our personal emails because if we are away, you may not be answered and we don't want that to happen.
